AccuQuiet® D Series

Our ultra low compression sound dampening solutions are the future in acoustical engineering.

Our D Series mats contain new technology that isolates vibration on a rigid platform. The new technology was developed by Arcosa Specialty Materials to keep up with the changing trends in multifamily construction where vinyl floor coverings allow applied loads to be passed directly through to the underlayment instead of being distributed over a larger area.

INTRODUCING ACCUQUIET® D18, ACCUQUIET® D25, AND ACCUQUIET® DX38, ULTRA LOW COMPRESSION MATS that provide outstanding sound control attenuating technology for use in conjunction with AccuCrete® Pourable Gypsum Underlayments.

AccuQuiet® sound mats are designed to meet the changing needs of sound control in multifamily construction. Rigid vibration isolation technology delivers durability and enhanced acoustic performance in the most challenging of projects.

AccuQuiet® sound mats are loose-laid over the subfloor and then covered with a uniform thickness of AccuCrete® Pourable Underlayment. No mechanical fastening is required.

AccuQuiet® Sound Control Systems are important components in floor-ceiling assemblies designed to achieve enhanced acoustical performance. AccuQuiet® offers three types of systems to solve a wide variety of acoustical problems by improving IIC and STC ratings of floor-ceiling assemblies.

AccuQuiet® Sound Control Systems offer a cost-effective noise reduction solution for new or renovation construction.

ACOUSTIC SOUND RATINGS

AccuQuiet® D18

On wood frame construction AccuQuiet®D18 can improve IIC ratings 6 – 14 db and 20 db in concrete construction. For additional information on sound test ratings please contact your local AccuCrete® Representative.

AccuQuiet® D25

On wood frame construction AccuQuiet®D25 can achieve IIC ratings up to 59 db and STC ratings up to 58 db. For additional information on sound test ratings please contact your local AccuCrete® Representative.

AccuQuiet® DX38

On wood frame construction AccuQuiet®DX38 can achieve IIC ratings up to 60 db and STC ratings up to 59 db. For additional information on sound test ratings please contact your local AccuCrete® Representative.
